ABOUT US

Founded by two of the world’s most respected nail manicurists, the EDKO™ brand preaches precision and technique. Emese Koppanyi and Frederic Edange have spent the last two decades traveling the world training technicians and helping them reach their full potential. In competition, they are highly decorated with awards and first place finishes in NAILPRO’s most prestigious tournaments, and in 2010 Koppanyi took first place in the third World Nail Championship in Monaco. After settling down and opening their own salon in West Hollywood, California, the pair have set out to build a brand suited for those who hope to become the next world champion.

Max Azria captured the hearts (and closets) of over 20 million women across the globe when he created BCBG. Since his departure, he has focused on investing in talented creatives looking to push their own industries. By teaming up with EDKO’s expert technicians, he plans not only to expand its presence in salons across the world, but bring consumer products to retail shelves.

EDKO™ is a provider of high-quality professional nail products. Designed with technicians in mind, all of our materials take into consideration the technique and time a nail artist needs to craft nails the way they envision them.
DESCRIPTION

This EDKO™ Exclusive 1-Step Gel is the healthiest 3-1 Gel on the market, made from all natural ingredients. More than that, it allows nail enthusiasts to avoid the use of acetone and comes off with normal rubbing alcohol (75% or more).

Being removable with isopropyl alcohol, this revolutionary 1-Step Gel does not require base coat or top coat. Perfect for the natural nail, gel, and/or acrylics. Best solution for any extension as it does not make the nail thicker due to the decreased amount of layers needed.

CURING TIME

Under LED lamp: 1 minute
Under UV lamp: 2 minutes

AVAILABLE IN

15ml / 0.5oz

+ WIDE VARIETY OF COLORS
+ NO WIPIEING NEEDED
+ ALCOHOL REMOVABLE
+ LASTING OVER 3 WEEKS
+ WEAR RESISTANT, CHIP PROOF
EDKO™ CLASSIC GEL SYSTEM

3 STEP GEL SYSTEM

DESCRIPTION

Researchers and designed by two well-respected, international award-winning nail technicians. Thoroughly enhanced to bring you only the best, highly pigmented, long-lasting 3-Step Gel System.

Our unique 3-Step Gel formula will provide the highest pigmentation without a single drop of dripping.

Our gel polish will last up to 3 weeks, and soaks off in ten minutes. Be sure to add base gel to ensure more precision and to reduce lifting.

To be used on the natural nail and on extensions.

APPLICATION

After applying the EDKO™ Base Gel coat without wiping the tacky layer, apply a thin layer of color on each finger and cure under LED lamp for 1 minute or 2 minutes under UV lamp. Repeat the same procedure on the other hand. Repeat the same process a second time without wiping the tacky layer.

Finishing: Apply EDKO™ Gel Super-Shine (no wipe) on one hand then cure for 1 minute under a LED lamp or 2 minutes under a UV lamp. Repeat the same procedure on the other hand then apply a drop of EDKO™ Cuticle Oil to all 10 fingers then massage.

New Arrival
R-EVOLUTION POWDER
A CUSTOMIZED POWDER TO CREATE FLAWLESS STRUCTURED ACRYLIC NAILS.

DESCRIPTION
Our acrylic products are designed with utility in mind. Powders are specially made to allow technicians to take as much time as they need, helping to avoid mistakes and perfect their technique.

Used by well respected nail artist Emese Koppanyi, to achieve the title NailPro Cup Champion 2018.

AVAILABLE OPTIONS
- Pink Powder: Nice pink for high crisp for more definition between pink and white
- Clear Powder: Ideal for coverage on inlaid designs or on natural nails for one tone desired nails
- Cover 1 Powder: No transparency. To better extend the nail bed
- Cover Pink Powder: Ideal for blending cover one within the nail bed
- White Powder: Pure, bright white - Ideal for creating pink white nails sets
- Natural White Powder: Can be used for competitions to create half moons and this is the preferred color to be used with cover 1 to create ombre nails

EDKO™ ACRYLIC SYSTEM
COLOR ACRYLIC POWDER

DESCRIPTION
With microscopically fine particles, it’s easy to use for decorating different types of nail art. Due to the high pigment content, it blends easily when mixed with liquid and creates a design or colored free edge all within a thin layer. These powders can make beautiful yet intricate decorations that can be filed off easily from the surface when refilling.

With our intensely bright and vibrant colors with robust pigmentation and high coverage, this will grant nail technicians the ability to explore a new wave of color ingenuity.

We offer 9 different collections with 8 beautiful colors each. Can be removed with acetone.

AVAILABLE IN
10g / 0.35oz

+ STRONG PIGMENTATION
+ HIGH COVERAGE AND COLOR INTENSITY,
+ 70 COLOR ACRYLIC POWDERS NAIL DESIGN

EDKO™ COLOR ACRYLIC POWDER, DESIGNED TO EXPLORE A WIDE OF COLOR VARIATION THROUGH THE USE OF ACRYLIC POWDERS.

EDKO™ SCULPTING LIQUID

DESCRIPTION
Our EDKO™ Monomer R-Evolution was made with no MMA and is a deep purple that will never show signs of yellowing.

EDKO™ R-Evolution Monomer is designed exclusively for Nail Technicians within a salon. This customized high technology monomer has properties that adheres polymers with ease. The combination of EDKO™ R-Evolution Monomer with the EDKO™ R-Evolution Powder is a revolution in the acrylic industry since the fusion of polymer and monomer makes the material stable and provides flexibility to the most sensitive customers.

TECHNOLOGY
These anti-UV agents protect against premature yellowing of the structure. This new formula contains all the adhesion agents.

APPLICATION
The unique composition of the R-Evolution Liquid used with the R-Evolution Powder forms an incredible alchemy for structural work which greatly facilitates the application of nail tech.

AVAILABLE IN
- 50ml / 1.69oz
- 250ml / 8.45oz
- 500ml / 16.90oz
- 1000ml / 33.81oz

EDKO™ ACRYLIC SYSTEM

PROCESS ACRYLIC BRUSH Nº8

DESCRIPTION
EDKO™ has proudly made the world’s smallest acrylic brush in the Process No8, and believes that all of these brushes should be in every technician’s salon. It’s like a sports car between your fingers and with its ergonomic design and silky red body, we bring you the Process No. 8 Acrylic Brush.

Whether you are looking for an edge against your competition or looking to add luxury and style to your salon, no other brush can compare to what EDKO™ has accomplished with No. 8 Process Brush. Though extremely lightweight (considering it is the world’s smallest acrylic brush), No. 8 has been designed and tested to withstand 108 grams of pressure. This provides perfect weight distribution and reflects the precision that both EDKO™ artists strive for in their products and service.

The crimping of metal that binds the brush hair in place has been redesigned for extra width, aiding you in creating the perfect line and controlling the ratio of powder and mix – giving you better control and saving you money long term. Bristles made of 100% Kolinsky Hair to ensure the most precise, exquisite lines to produce effortless designs.

AVAILABLE IN
Brush Process Nº8 Black / Brush Process Nº8 Red / Brush Process Nº8 Classic

+ WORLD’S SMALLEST ACRYLIC BRUSH
+ 100% KOLINSKI HAIR
+ BETTER CONTROL OF THE MIXED RATIO
+ COMPRESSION HAIR (108 G OF PRESSURE/ 30 SEC TIME FRAME)
+ ERGONOMIC DESIGN + EASY TO USE + LIGHTWEIGHT
EDKO™ Nail Champions has professionally designed this unique diamond dappen dish to be used both for competitions or everyday at the salon. With our distinct model, this can allow the technician the ability to take time with the liquid placed inside with our convenient glass lid. The brush can be dipped into the liquid completely without touching the bottom of the jar. This way more liquid can be put on the brush and the brush tip will not be damaged.

CLASSIC 3 STEP GEL SYSTEM

DESCRIPTION
Researched and designed by two well respected, international award winning nail technicians. Thoroughly enhanced to bring you only the best, highly pigmented, long lasting 3-Step Gel System.

Our unique 3-Step Gel formula will provide the highest pigmentation without a single drop of dripping. Our gel polish will last up to 3 weeks, and soak off 3 minutes with traditional remover. Be sure to add base gel to ensure more precision and to reduce lifting.

To be used on the natural nail and on extensions.

APPLICATION
After applying the EDKO™ Base Gel, without wiping the tacky layer, apply a thin layer of color on each finger and cure under LED lamp for 1 minute or 2 minutes under UV lamp. Repeat the same procedure on the other hand.

Finishing: Apply EDKO ™ Gel Super Shine (no wipe) on one hand then cure for 1 minute under a LED lamp or 2 minutes under a UV lamp. Repeat the same procedure on the other hand then apply a drop of EDKO ™ Cuticle Oil to all 10 fingers then massage.

AVAILABLE IN
12ml / 0.4oz

New Arrival
EDKO™ ALPHA BUILDER GEL
OUR BUILDER GELS HAVE CONSISTENTLY STRONGER ADHESION, VISCOSITY, AND HIGH PIGMENTATION IN ALL OF THE RIGHT PLACES

EDKO™ CLASSIC GEL SYSTEM
ALPHA BUILDER GEL

DESCRIPTION
It’s to spread it on the surface of the natural nail while keeping sculpted shape in tact, which permits more precision. Our gels can be used on both short and long nails. If pinched nails are desired, wait 30 seconds in LED light or 60 seconds in UV light. We ensure this product can be used in the comfort of your home with ease.

Clear is thick consistency / The rest are medium.

AVAILABLE OPTIONS
- CAMOUFLAGE GEL
- CLEAR GEL
- CLEAR PINK GEL
- COVER PINK GEL
- PINK GEL

AVAILABLE IN
30g / 1.06oz
50g / 1.76oz

APPLICATION
Apply it with a softer brush:
Triangle 6 and 8, oval brush.
Can be used in LED and UV light.
EDKO ™ CLASSIC GEL SYSTEM

DESCRIPTION
This is a medium viscosity, highly pigmented builder gel does not flow and is self-leveling. Provides perfect coverage in a thin layer, yet cures well when applied in a thicker layer. Recommended for building natural white free edges.

APPLICATION
Be sure not to let the bristles of the brush fan out to run the likelihood of touching the cuticles or creating craters which will cause an uneven cure of the nail.

When completed wipe down the final nail with a cleanser to remove the tacky layer left behind on the nail.

AVAILABLE IN
14g / 0.49oz
28g / 0.98oz

+ OLIGOMER BOND
+ CLEAR COAT
**EDKO™ SUPER SHINE GEL**

**DESCRIPTION**

EDKO™ Super Shine Gel serves as a finishing gel providing an incredible, wipe-free shine. Our Super Shine Gel reinforces the strength of the nail, yet provides a flexible finish to avoid breakage on impact.

This finish can be used with EDKO™ Process Sculpting Gel, or EDKO™ Powder R-Evolution.

If you realize your nails are not drying, check the wattage of your lamp ensuring proper strength of drying capabilities. Furthermore, when applying each layer, make sure to start with a small amount of product on the brushes to ensure a thin coat.

**APPLICATION**

- The EDKO™ Super shine gel is applied as a finish after of EDKO™ Color Gel, EDKO™ Process Acrylic or EDKO™ Process Gel.

**DIRECTION OF USE**

- Apply EDKO™ super shine gel to each of your nails on one hand.
- Cure hand for 1 minute under the EDKO™ Pro Light LED / UV lamp.
- Repeat the same process on the other hand.
- Super Shine Gel does not have inhibition layer, no need to wipe.
- Apply a drop of EDKO™ pineapple cuticle oil, then massage into the cuticle.

**CURING TIME**

- Under LED lamp: 1 minute
- Under UV lamp: 2 minutes

**AVAILABLE IN**

12ml / 0.4oz

**+ NO WIPING NEEDED  + CLEAR, MAXIMUM SHINE**

**+ FLEXIBLE AND DURABLE  + EASY TO USE**

Amazing Quality
EDKO™ PRO NAIL FORM
OF THE WORLD CHAMPION
WITH UNIQUE QUALITY

DESCRIPTION
Our professionally-designed form can be used any kind of nail shapes. Its unique composition grants technicians freedom to expand the form’s length, as well as stay in place however it is positioned, making it ideal for everyday work in the nail salon.

APPLICATION
Simply attach the form on your finger placing your nail for the measurement of the desired nail length of your extrusions.

When sculpting curved or extreme shapes, glue it under the form, so you can create a smoother curve.

TECHNOLOGY
1. We deepen the form from underlay so that its curve will be matching with the form’s.
2. After this deepening we stick the underlay onto its back side.
3. With the help of the bending tool, you can form a tunnel.
